

SWL Consulting – Company Overview & Full Services Document

Document prepared for RAG / AI matching purposes

ABOUT SWL CONSULTING

SWL Consulting is a full-service business consulting firm that helps companies grow, optimize, and scale through strategy, technology, and execution. With 120+ projects delivered across multiple industries, SWL offers end-to-end consulting in corporate finance, operations, project management, sales, marketing, AI, automation, and digital development.

Tagline: "Bigger Businesses, Stronger Teams"

Philosophy: "Ideas created by people. Systems powered by AI."

Industries served: Real Estate, SaaS, Healthcare, Retail, Home Services (HVAC, Plumbing, Pumping, Gyms, Environmental, Laboratory, Clinic), E-Commerce, Private Equity, Financial Services.

Methodology:

1. Discover – Identify strategic and AI opportunities
 2. Design & Build – Implement personalized strategies and solutions
 3. Scale & Expand – Drive sustainable, data-driven growth
-

SERVICE AREA 1: CORPORATE ADVISORY & FINANCE

What we do

We provide high-precision financial and strategic consulting to help clients optimize profitability, structure their planning, and make data-driven decisions. We design financial models, business models, valuations, and growth strategies that strengthen business sustainability.

Services include:

- **CFO Advisory / Fractional CFO** – Acting as CFO or Head of Finance for growing companies
- **Financial Modeling & Valuations** – P&L models, cashflow projections, DCF, IRR, MOIC, EBITDA analysis, sensitivity analysis, scenario planning
- **Financial Planning & Budgeting** – Budget construction, forecast, variance analysis (Budget vs Actual $\leq 10\%$)
- **Financial Reporting** – Income statements, balance sheets, financial statements, monthly close reporting, executive dashboards
- **Business Plan & Pitch Deck** – One-pager, investor-ready business plans, pitch decks, business analysis
- **Investment Strategy & M&A Support** – Mergers and acquisitions advisory, equity analysis, deal analysis, private equity support
- **Profitability & Cost Optimization** – Cost structure analysis, working capital optimization, margin control, profit center design

- **Financial Process Optimization** – Streamlining financial workflows, automating reporting, integrating finance tools
- **Startup Mentorship & Growth Strategy** – Unit economics, scalability planning, pricing strategy

Tools & platforms:

Fathom HQ, Floatapp, Baremetrics, Churnkey, Triple Whale, QuickBooks (QBO), Xero, NetSuite, Odoo, Power BI, Looker Studio, BigQuery, Google Sheets, Finmark, LivePlan

Keywords:

CFO, Financial Analyst, Head of Finance, Finance Director, Financial Consultant, Financial Advisor, Financial Controller, Financial Modeler, Financial Models, Forecast, Cashflow, Equity, Profit and Loss, Financial Statement, Profitability, Balance Sheet, Valuation, Mergers and Acquisitions, IRR, MOIC, DCF, EBITDA, NET INCOME, Business Plan, Business Analysis, Business Model, One pager, Pitch Deck, Financial Modelling, Financial Projection, Financial Analysis, Financial Planning, Financial Forecasting, Financial Planning and Budgeting, Financial Review, Income Statement, Scenario Planning, Sensitivity Analysis, Working Capital, Private Equity

SERVICE AREA 2: BUSINESS MASTERY (Operations & Back-Office)

What we do

We offer comprehensive back-office and operations solutions including bookkeeping, accounting support, administration, payroll, HR, documentation, and scalable processes that optimize clients' internal structures, reduce friction, and ensure order, traceability, and compliance.

Services include:

- **Bookkeeping & Accounting Support** – Full bookkeeping, record to report (R2R), bank reconciliation, books to bank, chart of accounts, invoicing
- **Back-Office Support & Administrative Services** – Virtual assistance, documentation control, SOPs, process mapping
- **Business Operations & Logistics Support** – Supply chain, inventory management, warehouse management, demand planning, procurement, vendor management
- **Payroll & HR Administration** – Payroll processing, HR records, employee data management, onboarding/offboarding
- **ERP Implementation & Support** – Odoo, QuickBooks, NetSuite, Xero, ServiceTitan, Xfin implementation and administration
- **Invoice Automation & Quote to Cash (Q2C)** – Automated invoicing, payment tracking, accounts receivable management
- **Treasury Management & Revenue Management** – Cash flow control, bank reconciliation, financial close
- **SOPs & Process Documentation** – Standard operating procedures, operational governance frameworks, compliance documentation
- **Virtual Assistance & Documentation Control** – Administrative support, meeting coordination, internal communications
- **Operational Efficiency** – Identifying and eliminating bottlenecks, automating administrative workflows

Tools & platforms:

Odoo, QuickBooks (QBO), Xero, NetSuite, ServiceTitan, Xfin, Notion, Google Drive, Clockify, Docusign, Wave, Float App

Keywords:

Inventory Management, Warehouse Management, Demand Planning, Procurement, Vendor Management, Supply Chain, Xfin, Odoo, Xero, QuickBooks, Netsuite, ServiceTitan, QBO, Bank Reconciliation, Treasury Management, Revenue Management, Corporate Advisory, Invoice Automation, Bookkeeper, Chart of Accounts, Books to Bank, Business Strategy, Business Development, Business Operations, Business Consulting, Healthcare, Real Estate, HVAC, Plumbing, Gyms, Environmental, Laboratory, Clinic, Project Management, Notion, Clickup, Asana, Jira

SERVICE AREA 3: PROJECT MANAGEMENT & BUSINESS INTELLIGENCE

What we do

We accompany clients in the execution of their projects through strategic project management, BI reporting, performance control, integrated metrics, and complete real-time visibility to ensure efficiency, goal achievement, and informed decision-making.

Services include:

- **Project Management** – End-to-end project coordination, SOW execution, delivery tracking, milestone management, deadline control
- **BI & Reporting** – Business intelligence dashboards, KPI reporting, performance tracking, weekly/monthly executive reports
- **Data Science & Data Analytics** – Data analysis, statistical modeling, insights generation, predictive analytics
- **Account Management & Feedback Intelligence** – Client reporting, feedback loops, satisfaction tracking, churn detection
- **Executive Insights & Decision-Making Support** – Strategic reporting, cross-departmental visibility, leadership dashboards
- **Operational Efficiency Optimization** – Process improvement, bottleneck identification, capacity planning, workload management
- **Dashboard Development** – Power BI, Looker Studio, Google Sheets dashboards for clients and internal teams
- **Data Pipeline & Database Management** – BigQuery, SQL, structured data flows for reporting and analytics

Tools & platforms:

Notion, Monday, Asana, ClickUp, Jira, Miro, Power BI, Looker Studio, BigQuery, Google Sheets, Odoo, Klipfolio, Tableau

Keywords:

Project Management, Business Intelligence, Dashboard, Reporting, KPIs, Data Analytics, Data Science, Power BI, Looker Studio, Tableau, Google Sheets, BigQuery, SQL, Notion, Clickup,

Asana, Jira, Account Management, Operational Efficiency, Data analyst, Reporting, Visualization

SERVICE AREA 4: SALES & CUSTOMER SUCCESS

What we do

We provide commercial consulting to optimize acquisition, conversion, and retention through multi-channel prospecting, sales process improvements, customer success, commercial automations, and growth strategies that drive sustainable revenue for clients.

Services include:

- **CRM Optimization & Pipeline Intelligence** – CRM setup, pipeline management, hygiene, automation, GoHighLevel, Kommo, HubSpot, Salesforce implementation
- **Multi-Channel Acquisition & Outreach** – Email campaigns, LinkedIn outreach, WhatsApp/SMS/Telegram campaigns, cold calling
- **Go-To-Market Execution & Sales Architecture** – GTM strategy, market entry strategy, sales playbooks, commercial frameworks
- **Customer Success & Retention Frameworks** – NPS programs, churn management, client health monitoring, onboarding automation
- **Revenue Growth & Strategic Partnerships** – Referral programs, upsell/cross-sell strategies, partnership development
- **Lead Generation & Qualification** – Apollo, Clay, Clearbit, ZoomInfo-based prospecting, AI-driven lead qualification
- **Sales Process Optimization** – Playbook creation, sequences, templates, outreach workflows
- **Commercial Playbooks** – Messaging frameworks, sales scripts, follow-up cadences
- **Upselling & Cross-Selling Programs** – Revenue expansion through existing client base
- **NPS, Churn & Client Health Management** – Retention frameworks, satisfaction measurement, churn prediction

Tools & platforms:

GoHighLevel, Kommo, HubSpot, Salesforce, Instantly, Manyreach, Smartlead, Lemlist, Apollo, Clay, Clearbit, ZoomInfo, Twilio, Bounceban, Mailchimp, ConvertKit, Aircall, Gong, Notion, Typeform

Keywords:

CRM, Salesforce, HubSpot, Zoho, Instantly, Manyreach, Apollo, Email marketing, Lead Gen, Kommo, Bounceban, Twilio, Maildoso, Klaviyo, GoHighLevel, Lemlist, Clay, Campaign Outreach, LinkedIn Ads, Google Ads, Meta Ads, TikTok Ads, Go-to-Market Strategy, GTM Framework, Market Entry Strategy, Product Launch Strategy, Growth Strategy Consultant, Commercial Strategy, Revenue Strategy, Pricing & Packaging Strategy, Customer Success, Retention, NPS, Churn

SERVICE AREA 5: MARKETING & BRAND STRATEGY

What we do

We develop and implement digital marketing strategies, growth, brand positioning, content, organic and paid campaigns powered by data and AI that increase visibility, engagement, acquisition, and sustainable growth for clients.

Services include:

- **Social Media Management & Awareness** – Instagram, LinkedIn, TikTok, YouTube content strategy and management
- **Content Planning & Creative Direction** – Content calendar, pillar strategy, brand voice, creative assets
- **Brand Identity & Marketing Strategy** – Brandbook, visual identity, positioning statement, communication guidelines
- **SEO, SEM & Online Presence Optimization** – Search engine optimization, Google My Business, keyword strategy
- **Digital Advertising & Performance Campaigns** – Google Ads, Meta Ads, TikTok Ads, LinkedIn Ads – campaign setup, optimization, A/B testing, remarketing
- **Growth Marketing Strategy** – Inbound marketing, demand generation, funnel optimization
- **Marketing Analytics & Conversion Tracking** – GA4, campaign dashboards, ROI measurement, attribution modeling
- **Communication & Positioning Strategy** – Market differentiation, messaging frameworks, trade-off analysis
- **Social Media Automation** – Scheduled publishing, analytics tracking with Metricool, Buffer, Hootsuite

Tools & platforms:

Metricool, Google Ads, Meta Ads, TikTok Ads, LinkedIn Ads, Google Analytics GA4, Supermetrics, Gamma, Canva, Midjourney, Hootsuite, Buffer, SEMrush, Exploding Topics

Keywords:

Social Media Management, Content Planning, Brand Identity, SEO, SEM, Google Ads, LinkedIn Ads, Meta Ads, TikTok Ads, Campaign Outreach, Metricool, Supermetrics, Gamma, Canva, Liveplan, Social Media Analytics, Social Media Reporting, Social Media Dashboard, Content Calendar, Social Media Automation, Google Analytics GA4, Go-to-Market Strategy, Growth Marketing, Marketing Analytics

SERVICE AREA 6: AI & AUTOMATION

What we do

We develop advanced artificial intelligence solutions — machine learning, predictive models, intelligent agents, automations, and custom tools — that improve efficiency, reduce costs, and generate competitive advantages in clients' businesses.

Services include:

- **AI Consulting & Strategy** – AI roadmap design, opportunity assessment, AI adoption frameworks
- **Predictive Models & Applied Machine Learning** – Forecasting models, classification, regression, churn prediction, demand forecasting

- **Chatbot Implementation & Fine Tuning** – Custom chatbots for sales, support, and internal use; LLM fine-tuning
- **AI-Driven Business Tools** – Custom AI tools for specific business processes, decision-support systems
- **Agents & Workflow Automation** – Intelligent multi-step agents using LangChain, LangGraph, AutoGen; n8n-based agent workflows
- **RAG (Retrieval Augmented Generation)** – Building knowledge bases, document Q&A systems, internal AI assistants
- **AI Knowledge Sharing & Training** – Team onboarding on AI tools, prompt engineering, internal AI adoption
- **Automation with AI for Clients** – End-to-end automation incorporating AI/LLM capabilities
- **Technical Debugging & Maintenance** – Monitoring, bug fixing, and performance optimization of AI systems
- **Competitive Intelligence Platforms** – AI-powered market research, competitor analysis, trend detection

Tools & platforms:

N8N, Make, Zapier, LangChain, LangGraph, AutoGen, Python, Pinecone, Weaviate, ChromaDB, Supabase, AWS, Azure, FastAPI, Flask, Docker, Pandas, NumPy, Scikit-learn, Synthflow, Twilio, Notion, GitHub

Keywords:

AI, Artificial Intelligence, Machine Learning, LLM, NLP, Python, AI Agents, LangChain, LangGraph, AutoGen, RAG, Prompt Engineering, MCP, Automation, Integration, Scrapping, N8N, Zapier, Make.com, Power Automate, Dashboard, Reporting, Business Intelligence, KPIS, Tableau, Power BI, Looker Studio, Google Sheets, Low Code, No Code, Airtable, Softr, Big Query, MySQL, SQL, Pinecone, Supabase, Snowflake, Data analyst, Data Analytics, Chatbot, C++, Git, Algorithms

SERVICE AREA 7: SYSTEM INTEGRATIONS & AUTOMATIONS

What we do

We implement custom integrations, automations, and data flows between CRM, ERP, BI, marketing, finance, and operations for clients to improve productivity, reduce operational time, and ensure technological cohesion and scalability.

Services include:

- **System Architecture Design** – Designing end-to-end integration architectures connecting all business tools
- **Systems Integrations** – Connecting CRM ↔ ERP ↔ BI ↔ Marketing ↔ Finance ↔ Operations
- **Agents & Workflow Automation** – Building intelligent automation workflows using n8n, Make, Zapier
- **Data Management & Migration** – Database design, data migration, data cleaning, structured data pipelines
- **Monitoring & Maintenance** – Automated monitoring, alerts, uptime tracking, debugging

- **Data Scraping & Enrichment Solutions** – Web scraping with Apify, PhantomBuster, SalesQL; data enrichment
- **Database Management & Internal Data Flows** – SQL databases, BigQuery, Supabase, Airtable-based data architecture
- **CRM & Tech Implementations** – HubSpot, Notion, Odoo, GoHighLevel implementation and integration
- **Cost Performance Monitoring** – ROI tracking for automations, hours saved, efficiency gains

Tools & platforms:

N8N, Make, Zapier, Airtable, Softr, Google Data Cloud, BigQuery, Supabase, Pinecone, Apify, PhantomBuster, SalesQL, Clearbit, ZoomInfo, Postman, Figma, Lucid, Notion, HubSpot, Salesforce, Odoo

Keywords:

Automation, Integration, N8N, Zapier, Make.com, Power Automate, Dashboard, Reporting, Business Intelligence, LLM, AI, Python, Scrapping, Tableau, Power BI, Looker Studio, Google Sheets, Low Code, No Code, Airtable, Softr, Big Query, MySQL, SQL, Pinecone, Supabase, Snowflake, Data analyst, Data Analytics, CRM, HubSpot, Notion, Salesforce, Odoo, System Architecture

SERVICE AREA 8: DIGITAL EXPERIENCE & PRODUCT DEVELOPMENT

What we do

We design and build comprehensive digital solutions for clients, including websites, CRMs, apps, e-commerce, and custom systems that improve digital presence, operational efficiency, scalability, and technological capabilities.

Services include:

- **Web Development & Maintenance** – Custom websites using WordPress, Webflow, Framer, Wix; landing pages, corporate sites, portfolio sites
- **E-commerce Platform Implementation** – Shopify, WooCommerce, Amazon, Magento stores; full setup, design, and optimization
- **App Development & Launch** – Mobile and web application development; MVP design and deployment
- **UX/UI Optimization & Digital Experience Design** – User experience audits, interface redesign, Figma prototyping, conversion optimization
- **CRM & Tech Implementations** – HubSpot, Notion, Salesforce, Odoo; full CRM setup, migration, and customization
- **Tech Solutions & Product Development** – Custom SaaS products, internal tools, plugins, digital platforms
- **Digital Architecture & Systems Design** – Scalable system design, modular architecture, technology roadmaps
- **Automated Sales Solutions** – TikTok shop integration, sales tech stack setup, omnichannel implementation
- **Performance Optimization** – Page speed, SEO technical optimization, security, uptime monitoring

Tools & platforms:

WordPress, Webflow, Framer, Wix, Figma, Shopify, WooCommerce, Retool, Lovable, Cursor, Claude, V0, Bolt, Notion, HubSpot, Salesforce, Hotjar, Google Analytics, Supabase, N8N

Keywords:

Web Development, Figma, Framer, Webflow, WordPress, WooCommerce, E-commerce development, Shopify, Salesforce, HubSpot, Zoho, CRM, Cursor, Claude, Lovable, V0, App development, Bolt, Metricool, Supermetrics, Gamma, Canva, Campaign Outreach, Google Ads, LinkedIn Ads, Meta Ads, TikTok Ads, Social Media Analytics, Content Calendar, Google Analytics GA4, Go-to-Market Strategy, GTM Framework, Market Entry Strategy, Product Launch Strategy, Growth Strategy Consultant, Commercial Strategy, Revenue Strategy, Pricing & Packaging Strategy

SUMMARY: WHAT TYPES OF JOBS SWL CONSULTING CAN TAKE

SWL Consulting can work on ANY job post that involves:

1. **Finance & Accounting:** CFO roles, financial modeling, budgeting, forecasting, valuations, bookkeeping, accounting support, QuickBooks, Xero, Odoo, NetSuite
2. **Operations & Admin:** Back-office, virtual assistance, SOPs, process documentation, ERP implementation, payroll, HR administration
3. **Project Management & BI:** PM, reporting dashboards, KPIs, analytics, Power BI, Looker Studio, data analytics, data science
4. **Sales & CRM:** CRM implementation, lead generation, outreach campaigns, GoHighLevel, HubSpot, Kommo, email marketing, GTM strategy
5. **Marketing:** Social media management, content strategy, paid ads (Google/Meta/TikTok/LinkedIn), SEO, brand strategy, growth marketing
6. **AI & Automation:** AI consulting, machine learning, chatbots, LLM, agents, RAG, n8n automations, Python, LangChain, prompt engineering
7. **System Integrations:** n8n, Zapier, Make, API integrations, data pipelines, CRM-ERP-BI connections, workflow automation
8. **Digital & Web:** Web development, e-commerce, app development, UX/UI, Shopify, WordPress, Webflow, CRM implementations

SWL does NOT typically work on: Pure creative design (graphic design only), physical product manufacturing, legal services, medical services, academic writing, or highly specialized engineering (civil, mechanical, electrical).
